Membership in GPA Midstream shall consist of any company, partnership or corporation which has an interest in the midstream industry. Midstream operations include gas gathering, crude gathering, compression, treating, processing, marketing and storage of natural gas, as well as fractionation, transportation, storage and marketing of natural gas liquids.

- Each Member shall be in one of six (6) dues Classes: O1, O2, O3, O4, International or Associate.
- Membership classification in the operating classes (O1, O2, O3 and O4) is determined by the number of operational hours worked by personnel in that Member's midstream facilities.
- An operating company can pay up to be a member of a higher class to obtain the benefits of that class (such as an automatic Board of Directors seat). Thresholds are listed below.
- New members will be billed and will pay a partial year's dues as determined by their join date.
- The company shall designate one individual from its organization as its GPA Midstream "official representative" to serve as the main contact for Association affairs.
- Members are subject to GPA Midstream's Articles of Incorporation and Bylaws.
